

# We bring your message to life

Never again will poor sound quality in video calls or meetings spoil your experience

Our product range has never sounded better. In our constant quest of making life easy for presenters we introduce **Neets Sound Bar - SB1**

Now, high class sound comes in one easy-to-install sound bar with extremely good looks.

The Neets Sound Bar - SB1 is a stylish sound bar, designed to bring your message to life. Whether you're in a meeting presenting a video, an audio track or facilitating a conference call, the quality of the sound is crucial. That is why we have created the Neets Sound Bar - SB1.

### Sound and style united

It has never before been this easy and stylish to enhance the audio performance in conference and meeting rooms as

well as in video calls. The 2.0 full-range stereo front speaker system, with built-in DSP, offers a massive improvement of the sound compared to the rear-facing speakers you typically find in displays. The grill is fully covered in modern fabric and the MDF cabinet with durable matt vinyl.

### Standalone or fully integrated

The Neets Sound Bar - SB1 is simple and advanced at the same time. You can simply connect it to the display and use the wake-on-signal feature or you can integrate it with your control system through the RS-232 port. This provides you with rich features such as EQ presets and input selection.

Turn it up. With **Neets Sound Bar - SB1** you can turn up the volume with confidence

Amplifier with built in "fixed-function" DSP ensures high sound quality for all purposes

Automatically turns on/off. This is energy efficient and eliminates the need for remote controls

Full-Range Sound Bar with no need for a subwoofer. The two 4" drivers and two 1" tweeters delivers all the depth you need

The RS-232 port opens for customization possibilities like the EQ presets for different user scenarios
