

SMS SLIM FIXED

Puts your display up as a poster on the wall.

Mount a thin display close to the wall with the aid of a bracket that can hardly be seen behind it. The distance from the wall is as little as 5 mm. The bracket has few parts and is easy to mount, making it a solution that is as clever as it is cost-

effective for anyone looking for a graceful and discrete mounting. The bracket is available in three versions (each with its own article number) to fit displays of different hole patterns. Recommended display size: approx. 32-60 inches.

INFO

- Finish: silver/white.
- Maximum load: 30 kg.
- Suitable for VESA standards from 200 x 200 to 800 x 400 mm, depending on the version selected:
