

New Presence Motorized Videoconference

Presence Motorized Videoconference is stable, easy to move around, and elegant. The unique, protected design completely hides cables and peripherals inside. This floorstand is attractive from all sides, so it is perfect for placement in the center of a room. Excellent choice for large, heavy displays and touch-sensitive displays, due to the very stable design. A clever, adjustable camera shelf is included.

The motorized height adjustment is soft and quiet, readily available from a button at the side of the unit, behind the displays. Motorized height adjustment works with both 110 and 220V (all markets) and allows you to work ergonomically.

The pre-factory assembly of Presence Motorized Videoconference means that installation is easy and quick, while the hidden cable chain inside ensures that cables run freely without risk of fastening.

The displays can be locked with a padlock or the accompanying locking screw, which provides increased protection from theft and personal safety. Fine adjustment possibilities allows for edge-to-edge mounting of displays.

Finish: New! Dark Grey.
